REVIEW OF PUBLIC ASSISTANCE

OLD AGE ASSISTANCE. In July, 10,831 recipients received Old Age Assistance grants amounting to \$431,293.00. Both the caseload and total payments were slightly lower than corresponding figures for the previous month. The average payment per recipient, however, increased from \$39.74 to \$39.82 (0.2%), and was 4.2% above the average payment a year ago. Average grants by county ranged from \$35.50 in Powder River County to \$43.16 in Golden Valley County (see table VI, page 10).

Of the 141 applications approved for Old Age Assistance in July, 99 were for new cases and 42 were for reopened cases. 31 applications were denied or otherwise disposed of during the month and 142 applications in process at the end of the month were carried forward into August.

Assistance to 175 recipients was discontinued for July with the death of the recipients accounting for the closing of 91 of these cases.

AID TO DEPENDENT CHILDREN. The July expenditure of \$137,037.00 for Aid to Dependent Children was 0.8% less than that for June but was over 20% greater than the expenditure for July of 1947. 5,034 dependent children in 1,935 families received grants averaging \$70.82 per family and \$27.22 per child.

During the month, 86 applications were approved for aid under this category and 101 families were removed from the rolls. The employment of a parent, dependent child, or other person in the home accounted for the closing of more than half of the number of cases closed.

AID TO NEEDY BLIND. The number of cases, expenditures, and the average payment per recipient in the Aid to Needy Blind program increased slightly over corresponding figures for the previous month. 449 recipients received grants amounting to \$18,757.00 at an average payment of \$41.78 per recipient.

GENERAL RELIEF. Expenditures from county poor funds for General Relief amounted to \$85,693.38 for the month of July. Of this total, \$35,120.96 was expended for subsistence grants, \$6,556.90 for medical care, \$41,143.23 for hospitalization and \$2,872.29 for the burial of indigents. The expenditures reported here for medical care and hospitalization are not the total of all county payments for these programs inasmuch as county physician's salaries and lump sum payments to hospitals under contracts are not included. If these expenditures were added, the totals would be substantially higher.

The number of recipients of General Relief decreased from June to July while the average payments per recipient increased (see table I, page 4).
